DNREC MISSION STATEMENT

The mission of the Delaware Department of Natural Resources and Environmental Control is to protect and manage the state's vital natural resources, protect public health and safety, provide quality outdoor recreation, and serve and educate the citizens of the First State about the wise use, conservation, and enhancement of Delaware's environment.

Front Cover: *Crushed automobiles are a major source of recycled steel. However, automobiles may contain mercury in switches and other devices. If these switches are not removed, the mercury may be released to the environment during the steel refining process. DNREC is working with the steel recycling industry to promote mercury switch removal.*
